

Mohamed Talaat Mahmoud

IT Support Specialist | Help Desk Engineer | Junior System Administrator

 mohamed.tal3at.08@gmail.com  +20 102 568 7826  Fayoum, Egypt  linkedin.com/in/mohamed-talaat-b7aa8627b

CAREER OBJECTIVE

IT Technical Support professional with NTI-certified expertise (97%) and Cisco-certified networking fundamentals. Experienced in Windows Server, Active Directory, network troubleshooting, and backend development. Seeking a challenging role in IT Support or System Administration to apply and expand technical skills in a professional environment.

EDUCATION

Bachelor's Degree — Educational Technology 2022 – 2026
Faculty of Specific Education | Fayoum University

- Specialized in database systems, web development, and IT infrastructure.
- Graduation Project: Fayoum Eco Tours — Django-based tourism platform using SQL Server, deployed on Render + Cloudinary.

CERTIFICATIONS

Certificate	Issuer	Date	Note
IT Technical Support	NTI – National Telecommunications Institute	2025	Score: 97%
Network Technician Career Path	Cisco Networking Academy	Oct 2025	
Networking Basics	Cisco Networking Academy	Jul 2025	
Introduction to Cybersecurity	Cisco Networking Academy	Oct 2025	
Digital Safety & Security Awareness	Cisco Networking Academy	Oct 2025	
CS50: Intro to Computer Science	Harvard University (edX)	Apr 2024	
Data Science & Machine Learning	Edrak	Mar 2023	

TECHNICAL SKILLS

Networking	TCP/IP, Routing & Switching (Cisco), Network Troubleshooting, Firewall Configuration, VLANs (basic), Subnetting
IT Support	Hardware & Software Troubleshooting, Windows Server, Active Directory, DNS, DHCP, Group Policy, Help Desk Support
Cybersecurity	Firewall Rules, SSID Isolation, Password Policies, Security Awareness, Basic Vulnerability Concepts
Development	Django (Backend), SQL Server (Schema Design, Stored Procedures), HTML/CSS/JS (basics), Git
Tools & OS	Cisco Packet Tracer, Microsoft Office (Advanced), Windows 10/11, Render, Cloudinary
Languages	Arabic (Native) English (Intermediate)

PROJECTS & EXPERIENCE

Fayoum Eco Tours — Backend & Database Lead 2025 – 2026
Graduation Project | Fayoum University | Team Project

- Designed and implemented full SQL Server database schema with stored procedures, soft delete, audit logging, and role-based access control.
- Built complete Django backend including authentication, user management, and RESTful API integration.
- Implemented Google & Facebook OAuth and integrated Gemini AI chatbot (later replaced with optimized Q&A system).
- Deployed production environment on Render (Django backend) + Cloudinary (media storage).

- Managed shared codebase and coordinated development across team members.

Windows Server Infrastructure Lab2025

NTI Practical Training | National Telecommunications Institute

- Configured Windows Server environment with Active Directory, DNS, DHCP, and Group Policy Objects.
- Managed 20+ domain users and client machines in lab environment.
- Applied security policies and access control configurations.

Cisco Networking Lab Practice2024 – 2025

Cisco Networking Academy | Academic Coursework

- Configured routers and switches in simulated environments using Cisco Packet Tracer.
- Implemented TCP/IP protocols, subnetting, basic security measures, and network troubleshooting.

Home Network Design & Security2025

Personal Lab Project

- Designed and configured a secure home Wi-Fi network with multiple SSIDs and VLAN isolation.
- Applied firewall rules, password policies, and monitored network performance.

PERSONAL DETAILS

Date of Birth:	18 January 2004	Nationality:	Egyptian
Military Status:	Postponed
