

Mohamed Talaat Mahmoud

Aspiring IT Support & Networking Professional | NTI-Certified (97%)

mohamed.tal3at.08@gmail.com | +20 102 568 7826 | Fayoum, Egypt | www.linkedin.com/in/mohamed-talaat-b7aa8627b

CAREER OBJECTIVE

Recent graduate who transitioned into IT through focused, hands-on training: NTI Technical Support certification (97%) and Cisco Networking Academy coursework (CCNA track). Built practical skills in Windows Server, Active Directory, and enterprise networking through structured labs and applied projects, including designing a multi-VLAN network infrastructure and a multi-domain Active Directory environment. Seeking a first professional role in IT Help Desk, IT Support, or Junior Networking to build on this foundation.

TECHNICAL SKILLS

Networking: TCP/IP, Routing & Switching (Cisco), VLANs, VLSM Subnetting, OSPF, EtherChannel/LACP, Inter-VLAN Routing, Network Troubleshooting, Firewall Configuration

IT Support: Windows Server, Active Directory, DNS, DHCP, Group Policy (GPO), Delegation of Control, Hardware & Software Troubleshooting, Help Desk Support

Cybersecurity: Firewall Rules, SSID Isolation, Password Policies, Security Awareness, Basic Vulnerability Concepts

Tools & OS: Cisco Packet Tracer, Windows 10/11, Microsoft Office (Advanced), Git

Additional Technical Skills: Django, SQL Server, Node.js/Express, HTML/CSS/JS

Languages: Arabic (Native), English (Upper-Intermediate)

PROJECTS & PRACTICAL EXPERIENCE

Windows Server Infrastructure Lab

2026

NTI Practical Training — National Telecommunications Institute

- Configured a full Windows Server environment with Active Directory, DNS, DHCP, and Group Policy Objects.
- Managed 20+ domain users and client machines in a lab environment.
- Applied security policies and access control configurations.

Cisco Networking Lab Practice

2024 – 2025

Cisco Networking Academy — Academic Coursework

- Configured routers and switches in simulated environments using Cisco Packet Tracer.
- Implemented TCP/IP protocols, subnetting, and basic network security measures.
- Diagnosed and resolved connectivity and configuration issues through structured troubleshooting.

Modern Hotel Network — Hierarchical Network Design

2026

Networking Practical Project — Cisco Packet Tracer

- Designed a 3-floor, 8-department hierarchical network for 200+ devices using VLSM-based subnetting across 8 VLANs.
- Implemented Inter-VLAN Routing on a Layer 3 Core Switch and configured OSPF between the Core Switch and Router.
- Bundled EtherChannel (LACP) links between the Core Switch and 3 Access Switches for redundancy and load balancing.
- Configured 8 department-specific DHCP pools and verified end-to-end connectivity, DHCP, and OSPF neighbor relationships.

NovaTech — Enterprise Active Directory Infrastructure

2026

MCSA Practical Project

- Built a multi-domain-controller Active Directory environment (novatech.local) with 2 Domain Controllers and 4 Organizational Units.
- Created 24 user accounts and department-based Security Groups across IT, HR, Finance, and Sales.
- Configured department-specific Group Policies (USB access control, CMD restrictions, password expiry, registry/Control Panel restrictions).
- Set up a File Server with department-restricted shared folders and delegated administrative rights (user creation, password resets) to a department manager.
- Configured DHCP scope with server reservations and a daily backup strategy for user data.

Fayoum Eco Tours — Graduation Project

2025 – 2026

Fayoum University, Team Project

- Co-led backend and database design for a tourism platform (Django, SQL Server) with role-based access control, later rebuilt on Node.js/Express and deployed on Render.
- Coordinated a shared codebase across a multi-person team from planning through deployment.

EDUCATION

Bachelor's Degree — Educational Technology

2022 – 2026

Faculty of Specific Education, Fayoum University

- Coursework included database systems, web development, and IT infrastructure. Pursued IT/Networking certifications independently alongside the degree.

CERTIFICATIONS

- IT Technical Support — NTI, National Telecommunications Institute (2025, Score: 97%)
- Network Technician Career Path — Cisco Networking Academy (Oct 2025)
- Networking Basics — Cisco Networking Academy (Jul 2025)
- Introduction to Cybersecurity — Cisco Networking Academy (Oct 2025)
- Digital Safety & Security Awareness — Cisco Networking Academy (Oct 2025)
- CS50: Introduction to Computer Science — Harvard University, edX (Apr 2024)
- Data Science & Machine Learning — Edraak (Mar 2023)

PERSONAL DETAILS

Date of Birth: 18 January 2004 | Nationality: Egyptian | Military Status: Postponed
